

Underground Miner - CYD Decline, Red Lake Mine.

[ByrneCut Canada Ltd](#)

Red Lake, Ontario

The ByrneCut Group

With over 4,000 employees around the globe, the ByrneCut Group is a leading full service underground mining contractor, servicing major mine owners internationally. We operate a multi-million dollar fleet of specialised underground mining equipment across several continents and deliver industry leading performance through innovation, quality, safety and reliability. We train and upskill our people into world class mining professionals and offer them the opportunity to work on exciting projects around the world.

In line with our growth plans in North America, ByrneCut Canada Ltd has been selected to deliver high speed, fully mechanized decline/ramp development services for the Campbell Young Dickenson Decline Project, Red Lake, Canada. We are seeking a dynamic team to be a part of this exciting project which will utilize the latest high capacity, high automation equipment.

The Role

We are seeking applications from experienced Underground Miners to work on small, fast paced single heading decline/ramp development crews.

Duties and Responsibilities:

- Scoop/LHD operation
- Loading/blasting development headings
- Mine services installation
- Jumbo drill offsidings as required
- Truck operation as required
- Complete operator and equipment shift reports and communicate closely with supervisors
- Maintain working area and equipment in a clean and orderly condition.
