

# Underground Shift Supervisor - CYD Decline, Red Lake Mine.

[ByrneCut Canada Ltd](#)

Red Lake, Ontario, Canada

## The ByrneCut Group

With over 4,000 employees around the globe, the ByrneCut Group is a leading full service underground mining contractor, servicing major mine owners internationally. We operate a multi-million dollar fleet of specialised underground mining equipment across several continents and deliver industry leading performance through innovation, quality, safety and reliability. We train and upskill our people into world class mining professionals and offer them the opportunity to work on exciting projects around the world.

In line with our growth plans in North America, ByrneCut Canada Ltd has been selected to deliver high speed, fully mechanized decline/ramp development services for the Campbell Young Dickenson Decline Project, Red Lake, Canada. We are seeking a dynamic team to be a part of this exciting project which will utilize the latest high capacity, high automation equipment.

## The Role

We are seeking applications from experienced Underground Shift Supervisors to join our team. Reporting to the Underground Superintendent/Foreman, this role is critical to the safe and efficient execution of day-to-day operations and delivery of the project schedule. The successful applicants role will be fast pace and dynamic.

## Duties and Responsibilities:

- Comply with ByrneCut, site safety, standard operating procedures and the Occupational Health and Safety Act (Ontario) and Regulations and environmental standards
- Perform the daily supervision of the mine working areas in accordance with the relevant acts and regulations
- Leading, coaching and developing your crew
- Coordinate daily operations and tasks to meet mine planning and contract production deadlines
- Inspect workplaces
- Work together with other departments to meet production targets
- Putting together production reports
- Lead team meetings/huddles
